

## Physician office visits

## Non-physician office visits

A vector plot showing the relationship between various factors and 'Error'. The factors are represented as vectors originating from a central point. The vectors are labeled: 'hospital' (blue), 'chronic' (green), 'school' (pink), 'health' (pink), 'gender' (blue), 'insurance' (brown), and 'Error' (pink). The 'Error' vector is highlighted with a pink oval. The 'Error' vector is the longest, followed by 'hospital', 'chronic', 'school', 'health', 'gender', and 'insurance'.
